

# Our silicone gaskets perform as well on your bottom line as they do on the track.

Engine Pro's Silicone Performance Gaskets are a perfect example of how you can capture more profit on parts and give your customers better value. Our oil pan and valve cover gaskets are made in the USA by an experienced gasket manufacturer, have features that rival the most exclusive gaskets made, and cost less. They're only available from professional engine shops so your customers can't buy them from online discounters for you to install.

## Featured Product

**ENGINE PRO SILICONE  
PERFORMANCE GASKETS  
WITH STEEL SUPPORT CARRIER**
